

EXIT ONLY

Pedestrian Door Lock

Compliance & Certifications

Approved for Government Use

U.L. Fire Rated 90 Minute

Exit Model

Available with Push Pull Handle
and Panic Bar

The LKM10K Lock Series Exit Models are designed to control the flow of traffic into rooms with multiple entrances, while always providing single motion egress. The Exterior Trim is a simple stainless steel plate so is not an FF-L-2890B approved lock, however it was approved for Government use.

BENEFITS

Interchangeable - You can install the LKM10K Lock Series in your facility and maintain a consistent look since the appearance of the Exterior Trim has not changed.

Retrofittable - Simply remove the existing LKM7000 Lock Series attach our Retrofit Fixture modify a few existing holes then install either the Push/Pull Model or Panic Bar Model.

Field Tested - With over 25,000 LKM7000 Lock Series in use today, we are confident the improvements we have made in our next generation LKM10K Lock Series will exceed your expectations. We've conducted our own internal 1,000,000 cycle tests as well as had a unit in the field for over a year, with great success.

Easy Operation - The internal linear bearing allows for easy entry and exit even with heavy loads applied to the door.

Easy To Order - All three models include everything you need, no add-ons. You get the Pedestrian Exit Device, the combination lock, the strike, Key Override option and three internal Monitoring Switches.
