# WAVE GOODBYE TO GERMS WITH TOUCHLESS DOOR ACTIVATION FROM BEA

COVID-19. Ebola. MRSA. Sars. Pneumonia. Influenza. The common cold. Some infections make national headlines, some make you miss work and others just make you miserable. No matter what the ailment, they should all remind you of the importance to practice good hand-hygiene.

At **Easter's Lock & Security Solutions** we are proud to offer the supply & installation of **BEA, Inc** touchless actuators for your facility.

Touchless activation devices are effective and intelligent ways to safeguard your facility, your employees and your customers. By installing touchless door activation devices on your doors, you're eliminating the need to touch extremely vulnerable and commonly touched items such as handles, push bars and other access methods. This helps eliminate cross contamination and reduce the spread of healthcare-associated infections.

As germs grow more aggressive and resistant to antibiotics and other treatments, it's imperative to safeguard your facility as much as possible. Touchless activation plates are an extremely effective way to do this.

**BEA Touchless Actuator Procurement**  
BEA, Inc. products can be found on our GSA Schedule #GS-07F-161AA. For GSA purchasing please visit GSA Advantage or contact Samantha for a quote at: [samantha@easterslock.com](mailto:samantha@easterslock.com)

**BEA Touchless Actuator Installation**  
Our AAADM Certified Technicians can install and service these buttons at your civilian agency/facility/base.

## NOW PROVIDING FIRE DOOR INSPECTIONS

Easter's Lock & Security Solutions is a NFPA80 Certified full-service fire door company with several certified inspectors on staff. Easter's can inspect the doors in your facility, prepare a report detailing deficiencies, provide a written estimate, and make the necessary repairs for the local Authority Having Jurisdiction (AHJ) with proof for your records.

Fire door inspections are required in almost every U.S. State. In 2007, a modification was made to the NFPA80 Standard for fire doors which mandated an annual inspection of every fire door in a building, citing that a high percentage of fire door assemblies weren't compliant and would not provide protection during a fire. The NFPA80 requires all fire-rated doors be tested for functionality (self-closing, latching, etc.) no less than annually and a written record of the inspection be kept on file for the AHJ or Fire Marshall.

**Let us take the headache out of your annual required fire door testing report. Call us today for a free estimate: 410-825-3535**

## 24-HOUR SHIPPING ON SELECT STC50 DOOR KITS!

Easter's Lock & Security Solutions is excited to announce that as an Authorized Distributor of Lockmaster's Inc, we are now extending their **24-Hour STC50 Door Program** to our Government and Commercial end-users. With 18 different packages available under this program, the self-contained kits come complete with door, frame, hardware, locking device & installation hardware all installed and shipped in one convenient package.

The STC50 doors made available through the 24-Hour Door Program can accommodate three different wall thicknesses: 5- 7/8", 6- 1/2", and 7-1/8". Multiple hardware options that utilize the LKM10K Locking Device include: LKM10K-H-X10, LKM10K-P-X10, LKM10K-HE, LKM10K-PE.

Additionally, Lockmaster's offers an option to make the doors 90-Minute Fire Rated if need be and a 14-month warranty is provided, covering the entire door.

## EASTER'S LOCK & SECURITY SOLUTIONS NOW A GSA MAS CONTRACT HOLDER SPECIALIZING IN SINS 334290 & 334290L

Easter's Lock & Security Solutions is a Certified Small Business and GSA MAS (Multiple Award Schedule) Holder specializing in Law Enforcement, Fire, & Security and covering the following GSA SINS (Special Item Numbers):

**334290 - Security and Detection Systems:** Includes security and detection systems and devices, such as gas detectors, pressure level monitoring, patient/detainee monitoring systems, etc. Subject to Cooperative Purchasing.

**334290L - Physical Access Control Systems (PACS) - Legacy SIN:** Includes physical access control systems (PACS), such as card-controlled access, biometrics, security barriers, etc. Includes non-FIPS physical access control systems. Subject to Cooperative Purchasing.

**OLM - Order Level Material:** OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule Contract or BPA. OLM pricing is not established at the Schedule Contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the Ordering Contracting Officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs. The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%.
